

ePhoto arrives!

Imagine ordering action photos from today's game hours after the final whistle. Well now you can with evertonfc.com! Everton's official club website are now able to bring you high quality photographic prints of every match from last season, this season and beyond.

evertonfc.com will have a team of photographers present at every Blues' match during the coming season, including some reserve, ladies and Academy games.

"The idea initially with ePhoto was to give supporters the opportunity to purchase pictures from our games within hours of the final whistle," said Communications Officer Mark Rowan.

"That is still the case and images from this afternoon's match with Southampton will be available to purchase from around 7.00pm - the time most fans will be arriving home.

"They are exclusive prints to evertonfc.com and can't be purchased anywhere else.

"They are also competitively priced

when you compare it against other on-line photo libraries offering a similar service."

There is also a 'Ten of the Best' section that shows a selection of photographs from the 2002-03 season including Wayne Rooney's first Premiership goal, against Arsenal.

Whether it be another Rooney wonder-goal or a fantastic save by Richard Wright, a superb tackle by Joseph Yobo or a mazy run from James McFadden, ePhoto will be there to capture all the images for Evertonians around the world.

As well as choosing images from individual games you can also buy prints of your favourite players, training shots at Bellefield and various shots of Goodison Park.

"We launched the service recently and already it has proved a massive hit amongst supporters," continued Mark.

"It gives our fans wherever they may be in the world a chance to own exclusive Everton prints.

"Prints have been available in the club's Megastore for years now but because of space restrictions

we were limited in the range of pictures that we could make available.

"ePhoto is a platform solely dedicated to Everton images and no such restrictions exist allowing supporters the opportunity to choose from a massive back catalogue.

"At present there are in excess of 200 images on ePhoto and we plan to continually update and maintain the service to bring you the most current pictures available."

Prints can be ordered by logging on to evertonfc.com and clicking on the ePhoto button on the homepage.
